

WHY YOU NEED HR CLUB

How HR Club Benefits You and Your Employer

Human Resources Professionals are uniquely positioned where as HR, they do not have a separate HR department or person to go to for their support. All other employees have HR, they have that resource who provides confidential support and guidance.

HR is challenging enough being the person/department that supports everyone else in the organization. It can be a heavy responsibility to carry. And, while HR professionals sign up for this responsibility, it does not mean that they do not also need support.

That is the reason for HR Club!

- 1. HR Club is a confidential, safe space for human resources professionals to learn, grow, share, and support each other.**
- 2. It provides the opportunity for individual learning and development through the monthly educational sessions, and with individual coaching.**
- 3. Everyone benefits from real HR situations to share, get advice, learn, and explore. The power of this is exponential!**

Employers benefit not only from investing directly in the HR Club to support the individual HR Professional, but through all the following ways as well:

- ✓ Goals that are set are achieved through coaching sessions.
- ✓ Tools are gained by learning from other situations and solutions shared.
- ✓ Best practices are shared openly.
- ✓ Vendors and resources are shared.
- ✓ Networks are increased.
